

CERTIFICATE

**MANN +
HUMMEL**

Certificate-ID:	C01-2025-04-21269517
Certificate for:	Product Carbon Footprint Methodology of MANN + HUMMEL GmbH
Certificate holder:	MANN + HUMMEL GmbH Schwieberdinger Straße 126 71636 Ludwigsburg
Review Report:	CF-2025-04-21269517
Applied Standards / Guides / Criteria:	The Greenhouse Gas (GHG) Protocol Product Life Cycle Accounting and Reporting Standard (2011)
Certification Scope:	The methodology scope aims to cover the sales portfolio according to the system boundaries "Cradle-to-Gate", including material acquisition and preprocessing, production and transportation and distribution; Manual calculation steps necessary for generating "Cradle-to-Grave" results were not subject to this review.
Valid until:	2026-04-30

TÜV Rheinland hereby certifies the Product Carbon Footprint Methodology per independent review. The reviewer found the methodology in conformance with the aforementioned standards. The plausibility, quality and accuracy of the PCF-based data and supporting information are confirmed.

The Certification is limited to the current version of the PCF methodology only and is bound to the expiration date. Validity of this certificate can be viewed by using the QR code or entering the test mark ID at www.certipedia.com.
